## **ENROLMENT CONTRACT – GENERAL CONDITIONS**

---

### **Educational Programme and Placement**

The School undertakes, in accordance with principle 4 of the admissions policy, to guarantee each student who is enrolled access to the educational opportunities provided by the Foundation that are appropriate to his/her needs. The School will only accept those students who can benefit from the education that is provided. It is the responsibility of school Principals, within a set of general guidelines laid down by the Director General, to apply this criterion in all cases.

To ensure the application of this principle, the following conditions apply:

- The first six weeks of school are probationary and during this period the suitability of courses and classes will be assessed. The School reserves the right to cancel the Enrolment Contract if the assessment shows that it is unable to offer the education that a particular student needs. In particular cases the School reserves the right to extend this probationary period.
- If the assessment shows that a student needs educational assistance beyond the general programme provided by the school, the Principal may deem additional support to be required. Any costs incurred by such support services are charged in addition to the regular school fees.
- The class indicated on the Enrolment Contract should be considered provisional and may be changed by the Principal if she/he deems this to be appropriate.
- The Enrolment Contract is offered on the basis of the information available to Principals at the time of accepting the student. As stated on the application form, the School reserves the right to cancel a place if the information supplied is inadequate or incorrect and/or it judges that it is unable to offer the education that a particular student needs.

### **School Rules / Expectations of Students**

Parents undertake to ensure that their children respect all school rules and in particular the obligation to attend classes on a regular basis throughout the school year. Students agree that information regarding school work such as reports and attendance be communicated to the person signing the Enrolment Contract (parent or legal guardian).

The School reserves the right to suspend temporarily or exclude permanently a student who does not respect the school rules.

# ENROLMENT CONTRACT – GENERAL CONDITIONS

---

## Suspension and Exclusion

The School may suspend temporarily or exclude permanently a student when it believes that this is in the student's or other students' best interests.

## Expectations of Parents

The School expects parents to treat other members of the School community with courtesy and respect. The School reserves the right to cancel an Enrolment Contract if it judges that a parent has shown a persistent lack of courtesy and respect to members of the School community.

## Student Emergency Card and health information

All children attending school are required to have health and accident insurance coverage.

The Student Emergency Card must be filled out online before your child starts school. It must be updated every year and also in case any of the family details change (address, contact number, insurance, etc.).

From the beginning of the school year, students will participate in field trips and outdoor activities. Without a prior completed or updated Student Emergency Card, unfortunately, children will not be able to participate.

## Personal Liability

The School is not liable for material damage or injury to others caused by your child even if the event takes place on school grounds. Your personal liability, covered or not by an insurance, will apply in such situations.

## Subject choices

For programmes where students are required to select options from a range of subjects offered, for example for the IB Diploma, the Foundation reserves the right not to run classes in a subject if there is insufficient demand. Each school will determine its required minimum number of students for a course to run.

## International Baccalaureate (IB) Regulations

Parents whose children are enrolled in an International Baccalaureate programme (Primary Years Programme, Middle Years Programme, Diploma Programme, or International Baccalaureate Career-related Programme) accept, in signing the School's Contract, the IB regulations that apply to these programmes.

Copies of the IB regulations for the relevant programme are issued to parents by school Principals and can be consulted on the individual school pages of the web site.

## Living Arrangements

Students must live with their parents or a close relative who can be named legal guardian and the School reserves the right to terminate the Enrolment Contract if this is not the case.

# ENROLMENT CONTRACT – GENERAL CONDITIONS

---

## Data protection

Ecolint may collect community members' personal data relating to enrolment, tuition or fundraising activities. It respects the Swiss data protection legislation as well as the European general data protection regulations and treats the information of its students and parents as strictly confidential.

Ecolint commits not to sell or make this information available to third parties. This data is exclusively used for internal, statistical or fundraising purposes.

You can find our detailed data protection and privacy policy on our website under [www.ecolint.ch/privacy](http://www.ecolint.ch/privacy)

## Policy for the use of images and recordings of students by the School

The School may wish to photograph, film or record students for certain events within the context of their school education. These images may be used in school brochures or other publications, on the public website or in social media channels or displayed around campus, for example on digital information screens or posters. We may also use video footage or web camera recordings during interschool conferences or educational projects.

From time to time, our campuses may be visited by the media who could take photographs, film footage or make recordings. Students may appear in these images which may be issued in local, national and international newspapers, and televised or broadcasted programmes.

### **In the above circumstances, the following conditions of use of images and recordings of students apply:**

1. Personal details or full names (first name and surname) will not be disclosed on pictures or alongside a picture or recordings (of a minor) without the express permission of a parent or legal guardian.
2. Personal details such as email addresses, postal addresses, telephone or fax numbers will not be disclosed.
3. The School will only use pictures of appropriately dressed students.
4. The permission to use images or recordings is for an unlimited period of time. Archived images and recordings can be used by the school.
5. The School will not sell images or recordings to third parties.
6. The School will not pay students for images or recordings.

Parents/guardians are asked to give explicit consent for the use of photographs and video recordings of

their children as part of the online enrolment and re-enrolment processes. Permission is solicited annually and, if granted, can be revoked at any time by writing to [communications@ecolint.ch](mailto:communications@ecolint.ch). Irrespective of the decision made, the School reserves the right to use images or recordings of all students for internal use (for example: on the password protected part of the website and publications to be distributed solely to members of the school community, which includes parents, staff and alumni).

### **Public events**

Whilst we encourage spectators at our shows and public events to refrain from recording them, to avoid disturbing other spectators or the performers, such is the nature of our increasingly connected world that this practice has become commonplace.

Parents/guardians of students who participate in events which are open to the public (e.g. school concerts, dance shows, theatrical productions, sports matches, end-of-year exhibitions) acknowledge that Ecolint cannot prevent third parties from using their own image recording devices (e.g. smartphones, tablets, digital cameras) to capture images of students. Parents equally acknowledge that Ecolint has no control of the usage made of these images or recordings by third parties.

### **Sports fixtures**

It should be noted that it has become standard practice for many schools to film sports matches and to use such footage either to live-stream to the internet or to share on social media channels such as YouTube and Facebook. In agreeing for their children to take part in competitive sports against other schools, parents/guardians acknowledge that their children's image may be recorded and used in this way and that Ecolint can take no responsibility for the use made of images and recordings by third parties whilst our students are engaged in school-related activities in a location outside of our campuses.

## FINANCIAL CONDITIONS
